

## Bauhaus

On the 100th anniversary of the founding of the famous design school this house replicates the building in Dessau designed by the principal Walter Gropius.

The simple form and industrial aesthetic create a light filled space for your pet, with ample light provided by the floor to ceiling glazing. Feed and water troughs are incorporated together with a unique Froebel bone toy.

There are several limited edition artefacts available including an Anni Albers rug and replica Marcel Breuer daybed. The main sign can also be customised with your dog's name.

## Colombo

Based on the Minimal Living Unit by Joe Colombo this provides all the essentials of modern living in a foldaway pod.

Useful where space is tight or alternatively as a portable home or summer retreat, this unit provides a range of modern creature comforts including task lighting, drinks cooler and fold down 'Eezybed'.

There are a variety of extras available with this unit including audio visual modules and timed feeding apps for your phone, with this unit your pet will truly live 'La Dolce Vita'.
